Dear Sirs

**APPROVAL OF PREMISE UNDER THE ANIMAL BY-PRODUCTS (ENFORCEMENT)
(SCOTLAND) REGULATIONS 2011**

I am pleased to inform you that your premise has been approved under the Animal By-Products (Enforcement) (Scotland) Regulations 2011.

Attached is your approval document. Your premise will only require reapproval if there is a change of ownership or there is a substantial change to the operation of the plant. If any such change occurs it is your responsibility to notify Animal Health routine inspections.

A copy of this letter will be sent to your local Animal Health and Veterinary Laboratories Agency Divisional Office, the Local Authority and SEPA.

Yours faithfully

Ian Murdoch
Rural and Environment Directorate

Approval No. 83/543/8201/ABP/COM

**Regulation (EC) 1069/2009 of the European Parliament and of the Council of 21 October 2009
laying down health rules concerning animal by-products not intended for human consumption**

The Animal By-Products (Enforcement) (Scotland) Regulations 2011

Approval of Composting Plant

1. In accordance with regulation 14 of the Animal By-Products (Enforcement) (Scotland) Regulations 2011 and Article 24 and 44 of Regulation (EC) No 1069/2009, the Scottish Ministers approve:

Name of Operator

GP Landscapes

Address of approved premises

Blantyre Muir
Newhousemill Road
Blantyre

Postcode G74 2LF

To operate a composting plant on the premises to treat Category 3 catering waste (meat included) in accordance with the Annex.

2. Samples must be taken during or on withdrawal from storage and tested for *Salmonella* once per month. Samples must be tested by a laboratory that holds UKAS accreditation for the appropriate test.

Signature

Name in
BLOCK LETTERS

IAN MURDOCH

Date

1 September 2011

A person authorised in that behalf by the Scottish Ministers.

Annex

1. The catering waste must be reduced in size to a particle size no greater than 40 cm using the shredder and treated in a composting tunnel in such a way that the catering waste achieves at least 60°C for at least 48 hours. The catering waste must be removed from the tunnel and loaded into a second tunnel where it must achieve at least 60°C for at least 48 hours.

Notes

Processed (rendered) material derived from Category 1 material may not be treated in a composting or biogas plant. If other processed material is treated in a composting or biogas plant, it must have been produced by –

- (a) Processing Category 2 animal by-products by method 1 in an approved processing plant,
- (b) Processing Category 3 animal by-products by one of the methods 1-7 in an approved processing plant.
