

- Environmental Policy Statement -

Clearcircle Environmental NI Ltd is a leader in environmental protection. The purpose of its operations is the recycling of waste to reducing the volume going to Landfill thereby reducing the risks of ground contamination and the need to manufacture the metal, glass, paper etc which it salvages.

As a business whose existence is based on environmental protection Clearcircle recognises the need to apply the principles of conservation and environmental management in all aspects of its work activities.

This Policy has been developed to ensure that the activities of Clearcircle itself are carried out with minimal environmental impact, thus contributing to the aims of sustainable development.

Clearcircle Environmental NI Ltd has a documented environmental management system which aims to reduce the environmental impact and prevention of pollution from our activities through: -

- **The implementation and ongoing management of our ISO 14001 system**
- **Design, specify and operate its activities to the highest standards according to the principles of BATNEEC (best available techniques not entailing excessive cost) and BPEO (best practical environmental option).**
- **Encourage effective resource management; including the reduction of raw materials and fuel consumption, waste minimisation, and recycling and environmentally benign disposal.**
- **Comply with all relevant environmental legislation, regulations, codes of practice and all other requirements and to keep abreast in all changes in legislation.**
- **Provide ongoing environmental training to all staff (and sub-contractors) to increase and maintain awareness of the potential environmental effects of their activities and the benefits of improved environmental performance.**
- **Develop effective procedures for response to incident or emergency situations and thereby avoiding or minimising environmental damage.**
- **Promote and encourage increased environmental performance, not only within the company itself, but also by its suppliers, clients and the public at large.**

Clearcircle's commitment to continual environmental improvement is demonstrated through setting and achieving environmental objectives and targets on an annual basis. The framework for setting and reviewing objectives and targets is documented in the environmental management system. All employees are expected to participate in the operation of the system and are encouraged to contribute to its development.
