

General & Recyclable Waste Disposal

We offer a general waste package, which has been developed to Revise, Reduce and Recycle general waste wherever possible.

Our carefully chosen network of partners operate on a national basis to offer scheduled collections of eurobins, front and rear loaders and roll on roll off containers.

Eurobin

Designed for light compactable waste and recyclables are ideal for small businesses and businesses with limited space or access issues.

Front End Loader

Suitable for light compactable waste and recyclables and ideal for the larger commercial and industrial sector.

Skips

Predominantly used for site clearances and storage of scrap metal.

RORO

Suitable for heavy, bulky and non-compactable waste.

Internal Recycling

Internal Office Recycling Boxes are available for either card and paper only, or for dry mixed Recyclables i.e card/paper/clean empty plastic bottles/cans/crisp packets/clean empty food packets.

Skips must only be level loaded, and there are certain waste types which are NOT allowed to be placed in general waste skips. Examples of these are: electrical items of any description, asbestos, plasterboard, fridge/freezers, car batteries, tyres, gas cylinders, paint tins (empty or full), food waste, fluorescent tubes, liquids, television sets or computer monitors. Please note there are many other types of hazardous waste and if you are in any way unsure, please speak to a member of our operations department BEFORE you place the item in the skip. Please note: Diagrams are not to scale and dimensions are approximate and are for guidance only.
